Scoped and Unscoped

NPM

Organization

The screenshot shows the NPM organization page for 'foo-dog'. The interface includes a top navigation bar with links for 'Products', 'Pricing', and 'Documentation'. Below this is a search bar with the placeholder text 'Search packages' and a 'Search' button. The left sidebar contains a list of navigation items: 'Profile', 'Packages', 'Account', 'Billing Info', 'Access Tokens', 'Organizations' (with a '+'), and 'foo-dog' (which is highlighted). The main content area displays the organization's name 'foo-dog' and a tabbed interface with four tabs: 'Packages' (selected), 'Members', 'Teams', and 'Billing'. Under the 'Packages' tab, it shows '2 packages' and a '+ Add Package' button. The first package listed is '@foo-dog/utls', described as 'Foo-Dog Utilities', published by 'aakochnpm' on '0.6.1' version '17 days ago'. The second package is '@foo-dog/attrs', described as 'Run attributes', published by 'aakochnpm' on '0.2.2' version '7 months ago'.
